Incident Narrative

On 01 September 2026 at approximately 18:20, I was driving the insured 2023 Maruti Suzuki Baleno, registration TN00DM2026, in Anna Nagar, Chennai. There was light rain and the road surface was wet. While making a slow left turn, the car briefly lost traction and the front-left corner contacted a concrete divider. The collision damaged the front bumper, left headlamp assembly and left front fender. The car remained driveable. There was no bodily injury, theft, fire, flooding, racing, intentional damage or involvement of alcohol or prohibited substances. No third-party property damage was observed. I notified the insurer on 02 September 2026 and arranged an estimate from Demo Auto Works.
